## Chairman's Statement

The Group prioritised party building to facilitate the integrated development of grassroots governance. We have always prioritised party building, proactively enhanced the organisational and institutional competence of community governance at the grassroots level, and continued to explore and address the most pressing difficulties and problems of greatest concern to the people. With special attention to the needs of property owners, we constructed a multi-party grassroots governance model comprised of the residents' committee, party committee, property management company and property owners' association of the community, and constantly reinforced the "Premium Star (星悦)" community brand. Many projects have achieved efficient co-governance and sharing of the community, mobilised grassroots activities, and advanced the delivery of the Group's high-quality services through the multi-party mechanism.

The Group remained fully committed to quality services. Upholding the core value of "Friendship, Companionship and Warmheartedness", the Group continued to refine its service standards, and enhanced its customer service capabilities by putting customers first. The Group safeguarded the bottom line of quality, and set an example of urban qualities. By maximising the advantages of community environment, we developed more than a hundred projects into "garden-style apartment complexes", and kept optimising the residential environment and living experience of property owners. During the Year, we also launched the "Spring Dawn Campaign (春曉行動)" and "Orange Storm (橙色風暴)" programs to enhance quality. Centred on these programs, we have established a long-term quality management mechanism. We increased in-depth presence in existing markets and maintained industry-leading service quality by further strengthening the implementation of the quality assurance system and upgrading our advantages over basic services.

The Group created an innovative value-added service ecosystem. Based on two growth poles of "property management and life services", we continue to explore innovative value-added services, and keep deepening the innovative value-added service ecosystem to truly realise the coverage of the full lifecycle of community residents. In line with the diversified needs of owners, we have upgraded the four traditional operations, focusing on the development of in-home services. We have also established property owners' life service centres, meeting the needs of residents for express courier stations, interior decoration and turnkey move-ins, housing agency and community retail. We have introduced quality suppliers for community commercial services, offering Lingyue's Premium Choice of products, making breakthroughs in the sales of product portfolio. We also pay special attention to elderly residents by actively developing elderly-friendly products and various value-added services so as to elevate property owners' sense of happiness and security.

**The Group explored customer needs and enhanced customer experience.** Adhering to the customer-centric principle, the Company aims to promote customer-driven organisational change by constructing a housekeeping network that solves customer demands and protects property owners' rights and interests. The Company has proactively upgraded its service system and renewed the quality of customer touchpoints. We listen to the voices of customers in the creation of service scenes, the perception of customer touchpoints, and the organisation of social and cultural activities. Our goal is to comprehensively enhance the perception and experience of customers of property services and to create a "good property" service system for Lingyue.

**The Group promoted technology-enabled and digital management.** During the Year under Review, we fully promoted the "Technology + Service" integration strategy, while constructing a digitalised operation system covering all aspects of property management. Driven by both Lingyue's big data screen and mobile platform, the Company has realised visual monitoring and intelligent decision-making for core business processes such as equipment operation and maintenance, customer service, and energy consumption management, significantly improving the level of refine management. Synchronised iteration and upgrading of the intelligent property management platform effectively optimise the service response mechanism and user experience. In view of future development, we will continue to deepen the application of the Internet of Things and digital technology, while strengthening the digital base of the smart community service ecology.

The Group refined its talent training system to build a strong talent pool. We continued to deepen the optimisation and reform of our organisational structure to support further regional exploration. Besides, we were committed to stimulating organisational vitality to focus on major business priorities and support key positions. We enhanced internal talent incubation through special talent training programs, namely the "Induction Program (登悦計劃)", "Pioneering Talent Program (領 辰計劃)", and "Leading Management Talent Program (領將計劃)". We continued to strengthen staff's work capabilities via innovative micro-courses and internal training platforms, providing talents with expansive career development space. We refined the talent training system from multiple dimensions, further inspiring our teams to unleash dynamics and create excellent results.

The Group actively undertook its social responsibility through pro bono activities. We have been carrying out "City Care" public welfare activities and building "Happy Courier Stations (幸福驛站)" in communities for many years following the philosophy of wholehearted contribution to public welfare activities and caring for front line city builders. We have also created more employment and development opportunities for migrant workers and local employees, and actively fulfilled our tax obligations to contribute to the harmony and stability of society.

## Management Discussion and Analysis

#### **BUSINESS REVIEW**

In 2024, against the backdrop of the impacts of sluggish economic performance, and fluctuations of the property management industry, the Group proactively responded to the complicated environment through comprehensive and systematic planning of the corporate vision and clearer way forward, and attained steadfast and great progress in various businesses as well as satisfactory results. We are convinced that people's desire for a better life has not changed.

Under the guidance of "pragmatic, professional and long-term" philosophy, the Group has continued to consolidate the fundamental property management business, reshaped its standardised system and formulated the development strategy of Ling Yue Services 3.0. During the Year, the Group's revenue amounted to RMB652.9 million, representing an increase of 7.2% as compared to the same period in 2023, and gross profit amounted to approximately RMB183.5 million, representing a decrease of 5.7% year-on-year. Net profit for the Year was approximately RMB86.2 million, representing a decrease of 17.6% over the same period in 2023.

Throughout the Year, the Group stuck to its development strategy of "deep cultivation in Southwest China, establishing a strong presence in Xinjiang, and pursuing nationwide development", and focused on two growth poles of "Sichuan and Xinjiang". As a result, the management scale achieved steady growth. Furthermore, the Group expanded its operations in sectors such as schools, parks, and public buildings, gradually advancing towards a comprehensive and diversified market.

#### Outlook

In the face of the opportunities and challenges brought about by the rapid development of the industry, we will firmly uphold the service philosophy of "Friendship, Companionship, and Warmheartedness". With quality as our foundation and warm services as our core, we will strengthen our operational fundamentals, prioritise value creation for customers, expand our service coverage, and persistently pursue long-term, high-quality corporate development.

#### MANAGEMENT DISCUSSION AND ANALYSIS

#### **Business Model of the Group**

The Group has three business lines, namely, (i) property management services, (ii) value-added services to non-property owners, and (iii) community value-added services, forming an integrated service offering to its customers that cover the entire value chain of property management.

- Property management services. The Group offers a wide range of property management services to property owners, residents and property developers, as well as tenants in non-residential properties under our management. The Group's services typically include security services, cleaning and greening services, and repair and maintenance services. The Group manages a diverse portfolio of properties, including residential properties, commercial properties and public and other properties.
- Value-added services to non-property owners. The Group offers value-added services to non-property owners, including (i) preliminary planning and design consultancy services; (ii) sales office management services; (iii) pre-delivery services; (iv) repair and maintenance services; (v) property transaction assistance services; and (vi) security support services.

• Community value-added services. The Group offers community value-added services primarily to property owners and residents to make their lives more convenient, such as (i) community space management services; (ii) decoration and turnkey furnishing services; (iii) convenient living services; and (iv) community retail services.

The Group offers comprehensive portfolio of property management services in order to diversify the Group's sources of revenue and achieve rapid growth. In recent years, the Group has been strengthening its community value-added service offerings. Leveraging its in-depth understanding of the needs of residents, the Group endeavors to further diversify its community value-added services. Community value-added services have been enhancing the Group's financial performance, as they typically generate higher profit margins, as compared to other types of property management services. The Group will continue to gain greater market shares and expand business presence in China.

#### **Property Management Services**

The Group has been providing property management services since its establishment in 2002. As at 31 December 2024, the Group's aggregate contracted GFA amounted to approximately 36.8 million sq.m., representing an increase of 1.3% as compared with the same time last year. As at 31 December 2024, the Group managed 272 properties with an aggregate GFA under management of approximately 31.6 million sq.m., representing an increase of 4.8% as compared with same time last year.

#### Value-added Services to Non-property Owners

The Group's value-added services to non-property owners include (i) preliminary planning and design consultancy services; (ii) sales office management services; (iii) pre-delivery services; (iv) repair and maintenance services; (v) property transaction assistance services; and (vi) security support services.

During the Year, revenue from value-added services to non-property owners decreased by 48.3% to approximately RMB22.4 million compared to approximately RMB43.3 million for the corresponding period of 2023, mainly due to a decrease in revenue from sales office management services and preliminary planning and design consultancy services. During the Year, the revenue from value-added services to non-property owners accounted for 3.4% of the total revenue. The following table sets forth a breakdown of the Group's revenue from value-added services to non-property owners for the years indicated.

	For the year ended 31 December 2024 2023				
	RMB'000	%	RMB'000	%

#### **Community Value-added Services**

The Group offers community value-added services to property owners and residents, including (i) community space management services; (ii) decoration and turnkey furnishing services; (iii) convenient living services; and (iv) community retail services.

During the Year, the revenue from community value-added services increased by 10.6% to approximately RMB50.9 million compared to approximately RMB46.0 million for the corresponding period of 2023, mainly due to an increase in revenue from community space management services and community retail services. During the Year, revenue from community value-added services accounted for 7.8% of total revenue.

The following table sets forth a breakdown of the Group's revenue from community value-added services for the years indicated.

	For the year ended 31 December

### FINANCIAL REVIEW

#### Revenue

The Group's revenue is mainly derived from three major businesses: (i) property management services; (ii) value-added services to non-property owners; and (iii) community value-added services. During the Year, the Group's revenue amounted to approximately RMB652.9 million, representing an increase of approximately 7.2% compared with RMB609.1 million in the same period of 2023. The following table sets out the revenue contribution of each business line for the years indicated:

	For the year ended 31 December 2024 2023			
	RMB'000	%	RMB'000	%
Property management services Value-added services to non-property	579,688	88.8	519,833	85.3
owners	22,374	3.4	43,285	7.2
Community value-added services	50,867	7.8	45,979	7.5
Total	652,929	100.0	609,097	100.0

Property management services is still the largest source of revenue for the Group. For the year ended 31 December 2024, revenue from property management services reached approximately RMB579.7 million, accounting for 88.8% of the total revenue of the Group. Such revenue growth was attributable to an increase in GFA under management. The decrease in revenue from value-added services to non-property owners was mainly due to a decrease in revenue from sales office management services and preliminary planning and design consultancy services. The increase in revenue from community value-added services was mainly due to an increase in revenue from community space management services and community retail services.

#### **Cost of Sales**

The cost of sales of the Group mainly includes (i) staff costs; (ii) subcontracting costs; (iii) costs of consumables; (iv) utilities costs; (v) office expenses; and (vi) repair and maintenance costs.

During the Year, the cost of sales of the Group was approximately RMB469.4 million, representing an increase of approximately 13.3% compared with approximately RMB414.4 million for the corresponding period of 2023. The growth rate of the Group's cost of sales was basically the same as the growth rate of revenue.

#### **Gross Profit and Gross Profit Margin**

During the Year, the Group's gross profit decreased by approximately 5.7% from approximately RMB194.7 million for the corresponding period in 2023 to approximately RMB183.5 million.

During the Year, the gross profit margin of the Group decreased by 3.9 percentage points to 28.1% from 32.0% for the same period in 2023, mainly due to increased project investment to improve property quality, which has led to a decline in the gross profit margin.

The gross profit margin of the Group by business line is as follows:

	For the year ended 31 December			
	2024	2023	Changes in	
	gross profit	gross profit	gross profit	
	margin	margin	margin	
	%	%	%	
Property management services	27.2	30.7	-3.5	
Value-added services to non-property owners	28.4	32.5	-4.1	
Community value-added services	38.3	46.1	-7.8	
Total	28.1	32.0	-3.9	

#### Administrative Expenses

During the Year, the administrative expenses of the Group increased by approximately 7.1% from approximately RMB56.6 million for the same period in 2023 to approximately RMB60.6 million, mainly due to the increase in labor cost.

#### Income Tax Expense

During the Year, the income tax expenses of the Group decreased by approximately 21.3% from RMB23.0 million for the same period in 2023 to approximately RMB18.1 million. The trend was consistent with the decrease of profit of the Group during the Year. The decrease in income tax expenses was mainly due to the decrease in operating profit resulting from the impairment provision for goodwill.

#### Profit Attributable to Owners of the Company

During the Year, total comprehensive income attributable to owners of the Company for the period was approximately RMB81.5 million, representing a decrease of approximately 19.9% as compared with RMB101.9 million for the same period in 2023.

#### Trade Receivables

The Group's trade receivables mainly relate to income from property management services, value added services to non-property owners and community value-added services provided to independent third parties. As at 31 December 2024, the Group's trade receivables amounted to approximately RMB135.6 million, representing an increase of approximately RMB14.6 million or 12.0% as compared with RMB121.0 million as at 31 December 2023. The increase was due to an increase in revenue as a result of an increase in GFA under management.

#### **Prepayments and Other Receivables**

As at 31 December 2024, the Group's prepayments and other receivables amounted to approximately RMB52.8 million, representing an increase of approximately 8.6% compared with RMB48.6 million as at 31 December 2023.

#### **Trade Payables**

As at 31 December 2024, the Group's trade payables amounted to approximately RMB41.1 million, representing an increase of approximately 30.8% from approximately RMB31.4 million as at 31 December 2023. Such increase was mainly due to the increasing cost for the increased GFA under management of the Group.

#### Liquidity and Financial Resources

The Group has adopted a prudent financial management approach towards its treasury policy. The Board closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and other commitments can meet the funding requirements of the Group in the foreseeable future.

During the Year, the Group's principal use of cash was investment, information construction and working capital, which was mainly funded by proceeds from the Company's operations.

#### **Cash Position**

As at 31 December 2024, the Group had cash and bank balances of approximately RMB712.9 million (31 December 2023: RMB602.9 million).

#### **Current Ratio and Gearing Ratio**

As at 31 December 2024, the Group's current ratio (current assets to current liabilities) is approximately 2.8 (31 December 2023: 2.8). Gearing ratio is calculated based on the sum of interest-bearing borrowings as at the respective dates divided by total equity as at the same dates and multiplied by 100%. Gearing ratio is calculated based on the sum of interest-bearing borrowings as of the respective dates divided by total equity as of the same dates and multiplied by 100%. Gearing ratio as at 31 December 2024 is not meaningful because the Group's interest-bearing borrowings as at the same date was nil (as at 31 December 2023: nil).

#### Foreign Exchange Risk

The Group primarily operates its business in China. The currency in which the Group denominates and settles of its transactions is mainly RMB. Any depreciation of RMB would adversely affect the value of any dividends the Group pays to Shareholders outside of the PRC. As at 31 December 2024, certain bank balances and cash were denominated in Hong Kong dollar, United States dollar and Australian dollar. The Group currently does not engage in hedging activities designed or intended to manage foreign exchange rate risk as it is expected that there will be no material foreign exchange exposure.

#### **Interest Rate Risk**

As the Group had no significant interest-bearing assets and liabilities, the Group is not exposed to material risk directly relating to changes in market interest rate.

#### Pledge of Assets

As at 31 December 2024, the pledge deposit of the Group was RMB0.1 million (31 December 2023: RMB0.1 million).

#### **Contingent Liabilities**

As at 31 December 2024, the Group had no contingent liabilities.

#### MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATED COMPANIES AND JOINT VENTURES

There was no material acquisition and disposal of subsidiaries, associated companies and joint ventures by the Group during the Year.

#### SIGNIFICANT INVESTMENTS HELD BY THE GROUP

During the Year, there were no significant investments held by the Group.

#### FUTURE PLAN FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

Save as disclosed in the section "Future Plans and Use of Proceeds" in the prospectus of the Company dated 29 June 2021, the Group had no plan for material investments and capital assets.

#### **EMPLOYEES AND REMUNERATION POLICY**

As at 31 December 2024, the Group had 5,786 employees (31 December 2023: 5,644 employees). For the year ended 31 December 2024, the total staff costs were approximately RMB313.1 million and the total staff costs were approximately RMB269.5 million for the same period in 2023.

The Group will further enhance its employee training program with internal and external resources. The employee training programs primarily cover key areas in the Group's business operations, which provide continuous training to its existing employees at different levels to specialize and strengthen their skills sets.

The Group adopts remuneration policies similar to its peers in the industry. The remuneration payable to its staff is fixed by reference to the duties and the prevailing market rates in the region. Discretionary performance bonus after assessments is paid to employees to reward their contributions. The Group is subject to social insurance contribution plans or other pension schemes prescribed by the local governments and is required to pay on behalf of its employees, a monthly social insurance funds covering pension fund, medical insurance, work-related injury insurance, maternity insurance and unemployment insurance, and the housing provident fund, or to contribute regularly to mandatory provident fund schemes on behalf of its employees. In determining the remuneration and compensation packages of the Directors and senior management, the Group will take into account salaries paid by comparable companies, time commitment and responsibilities of the Directors and performance of the Group.

### SUBSEQUENT EVENTS AFTER THE YEAR

No material events were undertaken by the Group subsequent to 31 December 2024 and up to the date of this report.

In compliance with Rule 3.21 of the Listing Rules, the chairlady of the audit committee possesses the appropriate professional and accounting qualifications.

The primary duties of the Audit Committee include, but not limited to (i) reviewing and supervising our financial reporting process and internal control system of our Group, risk management and internal audit; (ii) providing advice and comments to our Board; and (iii) performing other duties and responsibilities as may be assigned by our Board.

During the year ended 31 December 2024, 3 meetings of the Audit Committee were held to (i) review 2023 annual results, 2023 annual report, 2024 interim results and 2024 interim report for submission to the Board for approval; (ii) review the internal control and risk management systems of the Group; (iii) review and monitor the effectiveness of internal audit function and oversee the audit process; (iv) review the resources of accounting and financial reporting functions of the Group; and (v) review and discuss matters on change of external auditor.

The Audit Committee has reviewed the accounting principles and practices adopted by the Group and discussed auditing, internal control, risk management and financial reporting matters including the review of the audited annual consolidated financial statements of the Company for the year ended 31 December 2024. The Audit Committee is of the opinion that the preparation of the relevant financial statements complied with the applicable accounting standards and requirements and that adequate disclosure has been made.

#### **Remuneration Committee**

The Company established the Remuneration Committee with written terms of reference in compliance with Rule 3.25 of the Listing Rules on 22 June 2021 and the code provision E.1 of the CG Code. The Remuneration Committee currently consists of three members, namely Mr. Hu Ning (being the chairman of the Remuneration Committee), Mr. Liu Yuqi and Ms. Luo Ying.

The primary duties of the Remuneration Committee include, but not limited to (i) establishing, reviewing and providing advices to our Board on our policy and structure concerning remuneration of our Directors and senior management and on the establishment of a formal and transparent procedure for developing policies concerning such remuneration; (ii) determining the terms of the specific remuneration package of each executive Director and senior management member; (iii) reviewing the remuneration of non-executive Directors and recommending to the Board for approval; (iv) reviewing and approving performance-based remuneration by reference to corporate goals and objectives resolved by our Directors from time to time; and (v) reviewing and/or approving matters relating to share schemes under Chapter 17 of the Listing Rules. Each of the Directors will abstain from recommending or approving his/her own Director's remuneration.

During the year ended 31 December 2024, 2 meetings of the Remuneration Committee were held to (i) discuss and determine the remuneration of individual executive Directors and senior management for 2024; and (ii) reviewing the remuneration adjustments of non-executive Directors for 2024 and recommending to the Board for approval.

#### **Nomination Committee**

The Company established the Nomination Committee on 22 June 2021 with written terms of reference in compliance with the code provision B.3 of the CG Code as set out in Appendix C1 to the Listing Rules. The Nomination Committee currently consists of three members, namely Mr. Liu Yuqi (being the chairman of the Nomination Committee), Ms. Luo Ying and Mr. Hu Ning.

The primary duties of the Nomination Committee include, but not limited to (i) review the structure, size and composition of our Board on a regular basis and make recommendations to the Board regarding any proposed changes to the composition of our Board; (ii) identify, select or make recommendations to our Board on the selection of individuals nominated for directorship, and ensure the diversity of our Board members; (iii) assess the independence of our independent non-executive Directors; and (iv) make recommendations to our Board on relevant matters relating to the appointment, re-appointment and removal of our Directors and succession planning for our Directors.

During the year ended 31 December 2024, 2 meetings of the Nomination Committee were held to (i) review the structure, size and composition (including the skills, knowledge, experience and diversity of perspectives) of the Board; (ii) assess the independence of independent non-executive Directors; (iii) review the Board Diversity Policy and the policy on nomination of Directors (the "**Nomination Policy**"); and (iv) review the re-appointment of Directors who are subject to retire by rotation at the annual general meeting.

#### Nomination policy

The Company has adopted a Nomination Policy which sets out the selection criteria and procedures to nominate board candidates. The Nomination Committee aims to nominate suitable candidates to the Board and advise the Board on the appointment of directors and make recommendation to the Board, after assessing a number of factors of a candidate as set out in the nomination policy.

Pursuant to the Nomination Policy, the Nomination Committee shall identify suitable board candidates and make recommendation to the Board, after assessing a number of factors of a candidate, including, but not limited to:

- reputation for integrity
- accomplishment and experience
- compliance with legal and regulatory requirements
- commitment in respect of available time and relevant interest

• diversity in all its aspects, including but not limited to gender, age (18 years or above), cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service

The Nomination Committee may also consider such other factors as it may deem are in the best interests of the Company and the Shareholders as a whole.

The Nomination Committee will review the nomination policy, as appropriate, and recommend revision to the Board for consideration and approval from time to time.

The nomination process set out in the Nomination Policy is as follows:

#### Appointment of New Director

- (i) The Nomination Committee and/or the Board may select candidates for directorship from various channels, including but not limited to internal promotion, re-designation, referral by other member of the management and external recruitment agents.
- (ii) The Nomination Committee and/or the Board should, upon receipt of the proposal on appointment of new Director and the biographical information (or relevant details) of the candidate, evaluate such candidate based on the criteria as set out above to determine whether such candidate is qualified for directorship.
- (iii) If the process yields one or more desirable candidates, the Nomination Committee and/or the Board should rank them by order of preference based on the needs of the Company and reference check of each candidate (where applicable).
- (iv) The Nomination Committee should then recommend to the Board to appoint the appropriate candidate for directorship, as applicable.

#### **Re-election of Director at General Meeting**

- (i) The Nomination Committee and/or the Board should review the overall contribution and service to the Company of the retiring Director and the level of participation and performance on the Board.
- (ii) The Nomination Committee and/or the Board should also review and determine whether the retiring Director continues to meet the criteria as set out above.
- (iii) The Nomination Committee and/or the Board should then make recommendation to Shareholders in respect of the proposed re-election of Director at the general meeting.

Where the Board proposes a resolution to elect or re-elect a candidate as Director at the general meeting, the relevant information of the candidate will be disclosed in the circular to Shareholders and/or explanatory statement accompanying the notice of the relevant general meeting in accordance with the Listing Rules and/or applicable laws and regulations.

#### **Board diversity policy**

To enhance the effectiveness of the Board and to maintain the high standard of corporate governance, the Board has adopted a board diversity policy which sets out the approach to achieve diversity on our Board. The Company recognizes and embraces the benefits of having a diverse Board and sees increasing diversity at the Board level as an essential element in supporting the attainment of our Company's strategic objectives and sustainable development. Our Company seeks to achieve Board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. All Board appointments will be based on meritocracy and candidates will be considered against objective criteria, having due regard to the benefits of diversity on the Board.

Our Board currently comprises of seven members, including one female executive Director, two female non-executive Directors and two female independent non-executive Directors and one male executive Director and one male independent non-executive Director. The Directors also have a balanced mix of knowledge, skills and experience, including commercial property operation, overall business management, finance and investment. They have obtained tertiary degrees in various majors including accounting, psychology, law, computer science and economics. We have three independent non-executive Directors who have different industry backgrounds, representing over one-third of our Board members. Furthermore, the Board has a wide range of age, ranging from 35 years old to 57 years old. We have taken and will continue to take steps to promote gender diversity at all levels of the Company, including without limitation at the Board and senior management levels.

The Nomination Committee will review the board diversity policy and its implementation from time to time to ensure its implementation and monitor its continued effectiveness, and the same will be disclosed in our corporate governance report in accordance with the Listing Rules, including any measurable objectives set for implementing the board diversity policy and the progress on achieving these objectives on an annual basis. Our Directors recognize the particular importance of gender diversity. The Nomination Committee is of the view that the Company has achieved the diversity in respect of gender after considering the current composition of Board.

Nevertheless, with a view to developing a pipeline of potential successors to our Board that may keep the target gender diversity, our Group will (i) continue to apply the principle of appointments based on merits with reference to board diversity as a whole; (ii) take steps to promote gender diversity at all levels of our Group by recruiting staff at a mid to senior level with regard to the benefits of gender diversity; and (iii) engage more resources in training male staff who we consider having the suitable experience, skills and knowledge for our business to equip themselves with the attributes and competencies required to serve as members of our Board in light of our strategic needs and the industry in which we operate with the aim of promoting them to our Board in a few years' time.

#### **Gender Diversity of Employees**

As at 31 December 2024, the Group has a total of 5,786 employees, and the ratio of male to female employees (including senior management) is approximately 0.9:1 (As at 31 December 2023: 0.9:1). The Nomination Committee considered that the current ratio of male and female employees is relatively balanced.

## **CORPORATE GOVERNANCE FUNCTIONS**

The Board is responsible for performing the functions set out in the CG Code.

During the year ended 31 December 2024, the Board had reviewed the Company's corporate governance policies and practices, training and continuous professional development of Directors and senior management, the Company's policies and practices on compliance with legal and regulatory requirements, the compliance of the Model Code, and the Company's compliance with the CG Code and disclosure in this Corporate Governance Report.

The Board has resolved to adopt a Board Independence Evaluation Mechanism, to ensure independent view and input are available to the Board. The Board Independence Evaluation Mechanism includes various measures to ensure independent views and input are available to the Board.

The Board shall at all times comprise at least three independent non-executive Directors that represent at least one-third of the Board, such that there is always a strong element of independence on the Board which can effectively exercise independent judgment. Each independent non-executive Director is required to provide an annual confirmation of his/her independence to the Company and the nomination committee of the Company is responsible to assess the independence of each independent non-executive Director at least annually.

All the Directors, including the independent non-executive Directors, are given equal opportunity and channels to communicate and express their views to the Board and have separate and independent access to the management of the Group in order to make informed decisions. All Directors have full and timely access to all the information of the Company and may, upon request, seek independent professional advice in appropriate circumstances, at the Company's expenses for discharging their duties to the Company.

The chairman of the Board will hold meetings with the independent non-executive Directors without the involvement of other Directors at least annually to discuss any issues and concerns. Any Director or his/her associate who has a conflict of interest in a matter to be considered by the Board will be dealt with by a physical Board meeting rather than by written resolutions. Such Director will be required to declare his/her interests before the meeting and abstain from voting and not counted towards the quorum on the relevant resolutions. Independent non-executive Directors who, and whose associates, have no interest in the matter should attend the Board meeting.

The Board has reviewed and considered that the Board Independence Evaluation Mechanism is effective in ensuring that independent views and input are provided to the Board during the year ended 31 December 2024.

The Directors consider that the financial statements have been prepared in conformity with all applicable accounting standards and requirements and reflect amounts that are based on the best estimates, reasonable information and prudent judgment of the Board and the management. The Directors are not aware of any material uncertainties relating to events or conditions which may cast significant doubt upon the Group's ability to continue as a going concern. Accordingly, the Directors have prepared the consolidated financial statements of the Group on a going concern basis.

The statements of the auditor of the Group about its reporting responsibility on the consolidated financial statements of the Group are set out in the Independent Auditor's Report on pages 62 to 67 of this annual report.

## **RISK MANAGEMENT AND INTERNAL CONTROL**

The Board confirms that it is responsible for maintaining adequate and effective risk management and internal control systems for the Group as a going concern and reviews annually the effectiveness of the Company's internal controls and risk management systems to ensure the adequacy of the internal controls and the risk management systems in place. These systems are designed to manage, not eliminate, the risk of failure to achieve business objectives and can only provide reasonable, but not absolute, assurance that there will be no material misstatement or loss.

#### Risk management structure of the company

The Group believes that risk management is crucial to the success of the business of the Group in the PRC. Key operational risks facing the Group include changes in PRC political and economic conditions, changes in the PRC regulatory environment.

To monitor the ongoing implementation of our risk management policies and corporate governance measures after the Listing, the Group has adopted or will adopt risk management and internal control measures which primarily include:

- The legal audit department has formulated the risk management strategies, which have been reviewed and approved by the board of directors. The legal audit department is responsible for implementing our risk management strategies into the company's internal policies and internal procedures, assisting various business departments in improving their operation policies and procedures, and inspecting and evaluating the implementation and effectiveness of the risk management strategies.
- The operation management center, the legal audit department and finance personnel conduct real-time monitoring on the implementation of the company's business plans and strategic plans, record, summarize, analyze and process various types of relevant information, and keep risk management records. Each department shall report the business risk situation of the department to the internal audit department.
- The existing risk management strategies, policies and procedures will be timely revised and adjusted in response to material changes in the internal and external circumstances, to maintain their feasibilities and effectiveness.
- Sensitive and efficient risk handling and emergency management mechanisms have been established to reduce risk losses. For emerging major risks for which we lack a risk emergency response plan, the legal audit department will immediately coordinate with relevant departments, organize relevant personnel to study and formulate a risk response plans, and obtain approval from the board of directors for approval before implementing such plans.
- When a risk arises, the person in charge of the relevant unit must immediately report to the legal audit department. After the legal audit department receives the risk report, they will promptly evaluate the risk and determine whether it is a general internal risk or a corporate crisis that causes significantly negative impact on the corporate reputation, business activities and internal management. The person in charge of the relevant unit or the relevant personnel will be instructed to handle general internal risks while corporate crises must be handled in accordance with risk crisis procedures.

#### Risk management and internal control procedure

The Company has established internal control measures led by the Board whereby the management is responsible for assisting the Board in completing the identification and evaluation of risk factors of the business systems, implementing the Company's policies and procedures and participating in the design and operation of such measures that meet the Company's management requirements, which provides reliable assurance for the Company to carry out its business to prevent the occurrence of significant operational risks and losses. The Group also has an internal audit and risk control function which primarily carries out analysis and independent appraisal of the adequacy and effectiveness of its risk management and internal control systems, and reports their findings to the Board on, at least, an annual basis.

#### **Risk management and internal control review**

The risk management and internal control systems are reviewed and assessed on an on-going basis by the Audit Committee and the executive Directors, and will be further reviewed and assessed at least once each year by the Board.

The annual review in respect of the year ended 31 December 2024 has considered, among others (i) adequacy of resources; (ii) staff qualifications and experience; (iii) training programmes for the staff; and (iv) budget of the Group's accounting, internal audit and financial reporting functions. The Board also conducted a comprehensive evaluation on the timeliness, effectiveness and normativity of the procedures for handling and releasing inside information of the Company, as well as the effectiveness of the Company's processes for financial reporting and Listing Rules compliance.

During the year ended 31 December 2024, these systems were reviewed, covering all material controls including financial, operational and compliance controls of the Group, and considered effective and adequate.

#### **Dissemination of inside information**

The Group has in place a framework for the disclosure of inside information by reference to the Guidelines on Disclosure of Inside Information issued by the Securities and Futures Commission of Hong Kong. The framework sets out the procedures and internal controls for the handling and dissemination of inside information in an appropriate and timely manner, such as steps to ascertain sufficient details, conduct internal assessment of the matter and its likely impact on the Company, seek professional advice where required and verification of the facts. Before the information is fully disclosed to the public, any persons who possess the knowledge of such information must ensure strict confidentiality and must not deal in any of the Company's securities.

#### Whistle-blowing Policy

The Group has formulated internal policies and established an effective whistle-blowing system. On the one hand, the establishment of whistle-blowing policies and systems aims to strengthen internal integrity management and ensure a healthy and sustainable development for the Group; on the other hand, those who deal with the Group (e.g. customers and suppliers) can raise concerns, in confidence and anonymity, with the Audit Committee about possible improprieties in any matter related to the Group.

In order to effectively prevent fraud, the Group has set up a special whistle-blowing mailbox to encourage employees and others who deal with the Group to report disciplinary violations through e-mail and other means. The management of the Group will regularly inspect whether the whistle-blowing channel is effective, investigate and report the reported matters.

#### **Anti-Corruption Policy**

The Company has also in place the Anti-Corruption Policy to safeguard against corruption and bribery within the Company. The Company has an internal reporting channel that is open and available for employees of the Company to report any suspected corruption and bribery. Employees can also make anonymous reports to the internal audit function, which is responsible for investigating the reported incidents and taking appropriate measures. The Company continues to carry out anti corruption and anti-bribery activities to cultivate a culture of integrity, and actively organizes anti corruption training and inspections to ensure the effectiveness of anti-corruption and anti-bribery. The Anti-Corruption Policy is available on the website of the Company.

During the year ended 31 December 2024, the Company held 1 anti-corruption training and briefing to all employees.

## SHAREHOLDERS' RIGHT

#### **COMMUNICATION WITH SHAREHOLDERS AND INVESTOR RELATIONS**

The Company considers that effective communication with Shareholders is essential for enhancing investor relations and investor understanding of the Group's business performance and strategies. The Company endeavours to maintain an on-going dialogue with Shareholders and in particular, through annual general meetings and other general meetings. At the forthcoming AGM, Directors (or their delegates as appropriate) will be available to meet Shareholders and answer their enquiries.

#### Shareholders' Communication Policy

The Company has in place a Shareholders' Communication Policy. The policy aims at promoting effective communication with Shareholders and other stakeholders, encouraging Shareholders to engage actively with the Company and enabling Shareholders to exercise their rights as Shareholders effectively. The Board has reviewed the implementation and effectiveness of the Shareholders' Communication Policy and the results were satisfactory.

The Company has established a number of channels for maintaining an on-going dialogue with its Shareholders as follows:

#### (a) Corporate Communication

"Corporate Communication" as defined under the Listing Rules refers to any document issued or to be issued by the Company for the information or action of holders of any of its securities, including but not limited to the following documents of the Company: (a) the Directors' report, annual accounts together with a copy of the auditor's report and, where applicable, its summary financial report; (b) the interim report and, where applicable, its summary interim report; (c) a notice of meeting; (d) a listing document; (e) a circular; and (f) a proxy form. The Corporate Communication of the Company will be published on the Stock Exchange's website (www.hkex.com.hk) in a timely manner as required by the Listing Rules. Corporate Communication will be provided to Shareholders and non-registered holders of the Company's securities in both English and Chinese versions or where permitted, in a single language, in a timely manner as required by the Listing Rules. Shareholders and non-registered holders of the Company's securities shall have the right to choose the language (either English or Chinese) or means of receipt of the Corporate Communication (in printed form or through electronic means).

#### (b) Announcements and Other Documents pursuant to the Listing Rules

The Company shall publish announcements (on inside information, corporate actions and transactions, etc.) and other documents (e.g. Memorandum and Articles of Association) on the Stock Exchange's website in a timely manner in accordance with the Listing Rules.

#### (c) Corporate Website

Any information or documents of the Company posted on the Stock Exchange's website will also be published on the Company's website (www.lingyue-service.com). Other corporate information about the Company's business developments, goals and strategies, corporate governance and risk management will also be available on the Company's website.

#### (d) Shareholders' Meetings

The annual general meeting and other general meetings of the Company are primary forum for communication between the Company and its Shareholders. The Company shall provide Shareholders with relevant information on the resolutions(s) proposed at a general meeting in a timely manner in accordance with the Listing Rules. The information provided shall be reasonably necessary to enable Shareholders to make an informed decision on the proposed resolution(s). Shareholders are encouraged to participate in general meetings or to appoint proxies to attend and vote at the meetings for and on their behalf if they are unable to attend the meetings. Where appropriate or required, the Chairman of the Board and other Board members, the chairmen of board committees or their delegates, and the external auditors should attend general meetings of the Company to answer Shareholders' questions (if any). The chairman of the independent board committee (if any) should also be available to answer questions at any general meeting to approve a connected transaction or any other transaction that is subject to independent Shareholders' approval.

#### (e) Shareholders' Enquiries

#### Enquiries about Shareholdings

Shareholders should direct their enquiries about their shareholdings to the Company's share registrar, Computershare Hong Kong Investor Services Limited, via its online holding enquiry service at www.computershare.com/hk/contact or call its hotline at (852) 2862 8555, or go in person to its public counter at 17M Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong.

## Enquiries about Corporate Governance or Other Matters to be put to the Board and the Company

The Company will not normally deal with verbal or anonymous enquiries. Shareholders may send any enquiries to the Board by email: lingyue@lingyue-service.com or by post to 44/F, Tower A, Leading International Finance Center, No. 151, 2nd Tianfu Street, Gaoxin District, Chengdu, Sichuan Province, PRC.

#### (f) Other Investor Relations Communication Platforms

Investor/analysts briefings, roadshows (both domestic and international), media interviews, marketing activities for investors and specialist industry forums etc. will be launched on a required basis.

The Company has reviewed the shareholders' communication policy and considers that the Company has provided various channels for investors to understand the business and operations of the Group as well as channels for investors to express their opinions and comments. The Company believes that the shareholders' communication policy implemented during the Year is adequate and effective.

### **FINANCIAL SUMMARY**

A summary of the published results and of the assets and liabilities of the Group for the past five financial years is set out on page 140 of this annual report.

## **PROPERTY, PLANT AND EQUIPMENT**

Details of the movements in property, plant and equipment of the Group during the year ended 31 December 2024 are set out in note 12 to the consolidated financial statements.

## SHARE CAPITAL

Details of the movements in the share capital of the Company during the year ended 31 December 2024 are set out in note 25 to the consolidated financial statements.

#### RESERVES

Details of movements in the reserves of the Group during the year ended 31 December 2024, and reserves available for distribution to Shareholders by the Company as at 31 December 2024 are set out on pages 72 to 73 and page 140 of this report.

#### **USE OF NET PROCEEDS FROM THE LISTING**

On 12 July 2021, the Shares were listed on the Stock Exchange and in connection with the Listing, 70,000,000 new Shares with a nominal value of HK\$0.01 each were issued at a price of HK\$4.19 per Share for a total cash consideration of HK\$293.3 million, before deducting underwriting fees, commissions and related expenses. On 9 August 2021, the Company allotted and issued further 5,685,000 Shares at a subscription price of HK\$4.19 per Share pursuant to the partial exercise of the Over-allotment Option. The Company received net proceeds (after deduction of underwriting commissions and related costs and expenses) from the Global Offering (including the partial exercise of the Over-allotment Options) of approximately HK\$278.0 million.

As stated in the Prospectus and the announcement of the Company dated 5 August 2021, the Group intended to use the net proceeds as follows: (i) approximately 70.0% or HK\$194.6 million, will be used for strategic acquisitions and investments; (ii) approximately 20.0% or HK\$55.6 million, will be used to upgrade information system and equipment; and (iii) approximately 10.0% or HK\$27.8 million, will be used for working capital and general corporate purposes. As at the date of this report, approximately HK\$38.0 million of the net proceeds raised from the Listing were applied by the Company. The net proceeds would be allocated and used according to the purposes and timeframe set out in the Prospectus.

	Planned use of net proceeds as stated in the Prospectus and taking into account the net proceeds received from the partial exercise of the Over-allotment Option Approximate		Actual use of net proceedsUnutilised net proceeds as at 1 January 2024for the year ended 31 December 2024		Unutilised net proceeds as at 31 December 2024	Expected utilising timeline for unutilised net proceeds

Total	100.0%	278.0	240.0	9.2	230.8		

The following table sets forth details of the net proceeds as at the date of this report:

As at the date of this report, the unutilised net proceeds were applied to short-term demand deposits with well-established and licensed commercial banks and authorized financial institutions. Further details of the breakdown and description of the use of proceeds are set out in the section headed "Future Plans and Use of Proceeds" in the Prospectus.

As affected by a downward cycle of the upstream real estate industry, revenue growth slowdown in the industry and the changing of external competition environment, the Company has invested more prudently in business expansion and the upgrade of information system and equipment and therefore the expected timeline of the intended use of proceeds from Listing was later than originally scheduled.

## **BORROWINGS**

## **DIVIDEND POLICY AND FINAL DIVIDEND**

#### **Dividend policy**

Provision F.1.1 of the CG Code stipulates that the Company should have a policy on payment of dividends. The Group has no fixed dividend policy and, subject to the compliance with the relevant laws of the Cayman Islands and Articles of Association, the Company may have the right to declare dividends in any currency to be paid to the shareholders in general meeting, but no dividend may be declared in excess of the amount recommended by our Board. The Board may declare dividends in the future after taking into account our results of operations, financial condition, cash requirements and availability and other factors as it may deem relevant at such time. Any declaration and payment as well as the amount of dividends will be subject to Articles of Association and relevant laws of the Cayman Islands. In addition, the Directors may from time to time pay such interim dividends as the Board considers to be justified by the profits and overall financial requirements, or special dividends of such amounts and on such dates as they think appropriate. No dividend shall be declared or payable except out of the Group's profits, retained earnings or share premium, subject to a solvency test being satisfied. The future declarations of dividends will be at the absolute discretion of the Board. Any dividend distribution (other than interim dividend mentioned above) will also be subject to the approval of the Shareholders in the Shareholders' meeting.

#### Final dividend

The Board did not recommend the payment of a final dividend for the year ended 31 December 2024 (31 December 2023: Nil).

As at 31 December 2024, there was no arrangement under which a Shareholder had waived or agreed to waive any dividends.

### **ANNUAL GENERAL MEETING**

#### **SHARE OPTION SCHEME**

The Company conditionally adopted a share option scheme through Shareholders' written resolutions on 22 June 2021 (the "**Share Option Scheme**").

#### **Details of the Share Option Scheme**

#### (1) Purpose

The Share Option Scheme is a share incentive scheme prepared in accordance with Chapter 17 of the Listing Rules and is established to recognise and acknowledge the contributions that the Eligible Participants (as defined in paragraph (2) below) had or may have made to our Group. The Share Option Scheme will provide the Eligible Participants an opportunity to have a personal stake in our Company with the view to achieving the following objectives:

- (i) motivate the Eligible Participants to optimize their performance efficiency for the benefit of our Group; and
- (ii) attract and retain or otherwise maintain an on-going business relationship with the Eligible Participants whose contributions are or will be beneficial to the long-term growth of our Group.

#### (2) Participants

The Board may, at its discretion, offer to grant an option to the following persons (collectively the "**Eligible Participants**") to subscribe for such number of new Shares as the Board may determine at an exercise price determined in accordance with paragraph (6) below:

- (i) any full-time or part-time employees, executives or officers of our Company or any of its subsidiaries;
- (ii) any directors (including independent non-executive directors) of our Company or any of its subsidiaries; and
- (iii) any advisors, consultants, suppliers, customers, distributors and such other persons who in the sole opinion of the Board will contribute or have contributed to our Company or any of its subsidiaries.

#### (3) The maximum number of Shares available for issue

The total number of Shares which may be issued upon exercise of all options to be granted under the Share Option Scheme shall not in aggregate exceed 10% of the aggregate of the Shares in issue on the day on which trading of the Shares commences on the Stock Exchange, and such 10% limit represents 28,000,000 Shares, representing 9.80% of the total Shares in issue as at the date of this report.

#### (4) Maximum number of options to any one individual

The total number of Shares issued and which may fall to be issued upon exercise of the options granted under the Share Option Scheme and any other share option schemes of our Company (including both exercised and outstanding options) to each Eligible Participant in any 12-month period up to the date of grant shall not exceed 1% of our Shares in issue as at the date of grant. Any further grant of options in excess of this 1% limit shall be subject to approval of the Shareholders.

#### (5) Time of acceptance and exercise of option

An option shall be deemed to have been granted and accepted by the grantee and to have taken effect when the duplicate offer document constituting acceptances of the options duly signed by the grantee, together with a remittance or payment in favor of our Company of HK\$1.00 by way of consideration for the grant thereof, is received by our Company on or before the relevant acceptance date. Such remittance or payment shall in no circumstances be refundable.

An option may, subject to the terms and conditions upon which such option is granted, be exercised in whole or in part by the grantee giving notice in writing to the Company in such form as the Board may from time to time determine stating that the option is thereby exercised and the number of Shares in respect of which it is exercised.

#### (6) Price of Shares

The subscription price for a Share under the Share Option Scheme shall be determined by the Board in its absolute discretion, but must be at least the highest of:

- the official closing price of our Shares as stated in the Stock Exchange's daily quotation sheets on the date of grant, which must be a day on which the Stock Exchange is open for the business of dealing in securities;
- the average of the official closing prices of our Shares as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the date of grant; and
- (iii) the nominal value of a Share.

#### (7) Time of exercise of option and the duration of the Share Option Scheme

An option may be vested and exercised in accordance with the terms of the Share Option Scheme at any time after the date upon which the option is deemed to be granted and accepted and prior to the expiry of 10 years from that date. The Share Option Scheme does not specify any minimum holding period but the Board has the authority to determine for which a share option must be held before it can be exercised. The period during which an option may be exercised will be determined by the Board in its absolute discretion, save that no option may be exercised more than 10 years after it has been granted. No option may be granted more than 10 years after the Listing Date. Subject to earlier termination by our Company in general meeting or by the Board, the Share Option Scheme shall be valid and effective for a period of 10 years from the Listing Date. As at the date of this report, the remaining life of the Share Option Scheme is approximately six years and three months.

For details of the Share Option Scheme, please refer to the section headed "Appendix V — Statutory and General Information — D. SHARE OPTION SCHEME — 1. Share Option Scheme" in the Prospectus.

Since the date of the adoption of the Share Option Scheme and up to the date of this report, no options have been granted, exercised, cancelled or lapsed under the Share Option Scheme, and there were no outstanding options under the Share Option Scheme. The number of options and awards available for grant under the Share Option Scheme at the beginning and the end of the financial year of 2024 is 28,000,000 Shares.

#### To the Shareholders of Ling Yue Services Group Limited.

(Incorporated in the Cayman Islands with limited liability)

## Opinion

We have audited the consolidated financial statements of Ling Yue Services Group Limited (the "**Company**") and its subsidiaries (the "**Group**") set out on pages 68 to 139 which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2024, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("**IFRSs**") issued by the International Accounting Standards Board (the "**IASB**") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## **Basis for Opinion**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("**HKSAs**") issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**"). Our responsibilities under those standards are further described in the *Auditor's responsibilities* for the *audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "**Code**"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Other Matter**

The consolidated financial statements of the Group for the year ended 31 December 2023, were audited by another auditor who expressed an unmodified opinion on those statements on 28 March 2024.

## **Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Assessing impairment of goodwill

#### Key audit matter

Refer to note 3 of the material accounting policy and note 13 to the consolidated financial statements.

As at 31 December 2024, the Group had goodwill of RMB6,482,000, net of impairment loss of RMB11,988,000 in relation to the Group's acquisition of businesses.

Goodwill is tested for impairment annually. The goodwill impairment review performed by the Group's management includes a number of significant judgements and estimates including those regarding the identification of cash generating units ("**CGUs**"), operating profit forecasts, the annual revenue growth rates and the discount rates.

We identified this area as a key audit matter because of the materiality of the goodwill balance and the uncertainty of estimation made by management on the key assumptions.

The significant accounting estimates and disclosures about the goodwill impairment assessment are included in note 13 to the consolidated financial statements, respectively.

#### How the matter was addressed in our audit

Our audit procedures to assess the goodwill impairment included the followings:

- (i) Examining the underlying data used, such as management's projection on the future revenues and operating results by investigating whether the forecasts were consistent with the financial performance of each CGU during the year of 2024.
- (ii) Obtaining an understanding of, the business development plans and historical annual growth of each CGU to evaluate the growth rate of each CGU.
- (iii) Evaluating the methodologies and discount rates used by the Group for determining the recoverable amounts.
- (iv) Assessing the sensitivity analysis performed by the Group's management on the impact of changes in the key assumptions.

We also assessed the adequacy of the Group's disclosures of goodwill impairment in the consolidated financial statements.

#### Assessing expected credit losses on trade receivables

#### Key audit matter

Refer to note 3 of the material accounting policy and note 18 to the consolidated financial statements.

As at 31 December 2024, the Group had trade receivables of RMB135,609,000, net of loss allowance of RMB45,156,000.

Management assessed the expected credit losses on trade receivables based on assumptions about risk of default and expected credit loss rates. The Group used judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, ageing profile of the receivables, existing market conditions as well as forward-looking estimates at the end of each reporting period.

We identified this area as a key audit matter because of the magnitude of the balance of trade receivables and the assessment of the expected credit losses on trade receivables involving significant judgements and estimates made by management.

The significant accounting estimates and disclosures about the provision for expected credit losses on trade receivables are included in note 18 to the consolidated financial statements.

How the matter was addressed in our audit

Our audit procedures to assess the provision for expected credit losses on trade receivables included the followings:

- (i) Obtaining an understanding of, management's key controls in relation to the assessment of the expected credit losses on trade receivables;
- (ii) Assessing the methodology and assumptions adopted by management;
- (iii) Assessing the estimated credit loss rates by considering historical cash collection performance;
- (iv) Assessing the forward-looking factors by taking into account the market conditions;
- (v) Testing, on a sampling basis, the ageing analysis of trade receivables prepared by management; and
- (vi) Checking the mathematical accuracy of the calculation of the provision for loss allowance.

We also assessed the adequacy of the Group's disclosures of trade receivables in the consolidated financial statements.

# INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors of the Company are responsible for the other information. The other information comprises all the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## RESPONSIBILITIES OF THE DIRECTORS OF THE COMPANY AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion, solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.
- Conclude on the appropriateness of the Company's directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purpose of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Lau Kai Wong.

### 2. ACCOUNTING POLICIES

#### 2.1 Basis of Preparation

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("**IFRSs**") (which include all International Financial Reporting Standards, International Accounting Standards ("**IASs**") and Interpretations) issued by the International Accounting Standards Board ("**IASB**") and the disclosure requirements of the Rules Governing the Listing of securities on The Stock Exchange of Hong Kong Limited and Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for equity investments designated at fair value through other comprehensive income which have been measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

These consolidated financial statements are presented in Renminbi ("**RMB**") and all values are rounded to the nearest thousand except when otherwise indicated.

For the Year Ended 31 December 2024

### 2. ACCOUNTING POLICIES (Continued)

#### 2.2 Changes in Accounting Policies and Disclosures

The Group has adopted the following amendments to IFRSs which are effective for the Group's financial year beginning on 1 January 2024:

Amendments to IFRS16	Lease Liability in a Sale and Leaseback
Amendments to IAS 1	Classification of Liabilities as Current or Non-current
Amendments to IAS 1	Non-current Liabilities with Covenants
Amendments to IAS 7	Supplier Finance Arrangements
and IFRS 7	

The application of the amendments to IFRSs in the current year has had no material effect on the Group's financial performance and positions for the current and prior periods and/or on the disclosures set out in these consolidated financial statements.

#### 2.3 Issued but Not Yet Effective International Financial Reporting Standards

The Group has not applied the following new and amendments IFRSs, that have been issued but are not yet effective, in these financial statements. The Group intends to apply these revised IFRSs, if applicable, when they become effective.

IFRS 18	Presentation and Disclosure in Financial Statements <sup>3</sup>
IFRS 19	Subsidiaries without Public Accountability: Disclosures <sup>3</sup>
Amendments to IFRS 21	Lack of Exchangeability
Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments
Amendments to IFRS	Annual Improvements to IFRS Accounting Standards-
Accounting Standards	Volume 11 <sup>2</sup>
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture <sup>4</sup>
Amendments to IFRS 9 and IFRS 7	Contracts referencing Nature-dependent Electricity <sup>2</sup>

- 1 Effective for annual periods beginning on or after 1 January 2025
- 2 Effective for annual periods beginning on or after 1 January 2026
- 3 Effective for annual periods beginning on or after 1 January 2027
- 4 Effective for annual periods beginning on or after a date to be determined.

The directors of the Company anticipate that the application of the new and amendments to IFRSs will have no material impact on the results and the financial position of the Group.

### 2.4 Material Accounting Policies

#### Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Generally, there is a presumption that a majority of voting rights results in control. When the Company has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, any non-controlling interest and the exchange fluctuation reserve; and recognises the fair value of any investment retained and any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

#### Investments in joint ventures

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses.

The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in the consolidated profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of joint ventures is included as part of the Group's investments in joint ventures.

#### **Business combinations and goodwill**

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets includes an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

For the Year Ended 31 December 2024

# 2. ACCOUNTING POLICIES (Continued)

### 2.4 Material Accounting Policies (Continued)

#### Business combinations and goodwill (Continued)

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

#### Investments in subsidiaries

Investments in subsidiaries are stated on the statement of financial position of the Company at cost less accumulated impairment loss.

### 2.4 Material Accounting Policies (Continued)

#### Fair value measurement

The Group measures its financial assets at fair value through other comprehensive income at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

### 2.4 Material Accounting Policies (Continued)

#### Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required, the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs. In testing a cash-generating unit for impairment, a portion of the carrying amount of a corporate asset (e.g., a headquarters building) is allocated to an individual cash — generating unit if it can be allocated on a reasonable and consistent basis or, otherwise, to the smallest group of cash-generating units.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises.

#### **Related parties**

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
  - (i) the entity and the Group are members of the same group;
  - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
  - (iii) the entity and the Group are joint ventures of the same third party;
  - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group; and the sponsoring employers of the post-employment benefit plan;
  - (vi) the entity is controlled or jointly controlled by a person identified in (a);
  - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
  - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

#### Property, plant and equipment and depreciation

Property, plant and equipment, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Machinery Electronic equipment 20% to 33.3% 20% to 33.3%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

For the Year Ended 31 December 2024

# 2. ACCOUNTING POLICIES (Continued)

#### 2.4 Material Accounting Policies (Continued)

#### Other intangible assets (other than goodwill)

Other intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

#### Software

Purchased software is stated at cost less any impairment loss and is amortised on the straight-line basis over its estimated useful life of 3 years.

#### Customer relationship

Customer relationship acquired in business combinations is recognised at fair value at the acquisition date. The customer relationship has a finite useful life and is stated at cost less accumulated amortisation and any impairment losses. Amortisation is calculated using the straight-line method over the expected useful life which is 10 years, taking into account the prior experience of the renewal pattern of property management contracts.

#### Leases

#### Definition of a lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

#### The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less from the commencement date and do not contain a purchase option) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

#### Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

#### Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income ("**FVTOCI**"), and fair value through profit or loss ("**FVTPL**").

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them.

#### Financial assets at amortised cost (debt instruments)

The Group measures financial assets subsequently at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

#### Financial instruments (Continued)

Financial assets at amortised cost (debt instruments) (Continued)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment

(i) Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective applying the effective interest rate to the gross carrying amount of the financial asset.

For originated credit-impaired financial assets, the Group recognises interest income by applying the credit-adjusted effective interest rate to the amortised cost of the financial asset from initial recognition. The calculation does not revert to the gross basis even if the credit risk of the financial asset subsequently improves so that the financial asset is no longer credit-impaired.

Financial assets at amortised cost (debt instruments) (Continued)

(i) Amortised cost and effective interest method (Continued)

Interest income is recognized in profit or loss and is included in the "Other income" line item (note 5).

Equity instruments designated as at FVTOCI

On initial recognition, the Group may make an irrevocable election (on an instrumentby-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination.

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs.

Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the investment revaluation reserve. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, instead, they will be transferred to retained earnings.

Dividends from investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the 'investment and other income' line item in profit or loss.

### 2.4 Material Accounting Policies (Continued)

#### Financial instruments (Continued)

Impairment of financial assets and other items subject to impairment assessment under IFRS 9

The Group recognises a loss allowance for expected credit losses on the amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group measures the loss allowance equal to 12-month ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition.

#### Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

#### Financial instruments (Continued)

Impairment of financial assets and other items subject to impairment assessment under IFRS 9 (Continued)

Significant increase in credit risk (Continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) the debt instrument has a low risk of default, ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term, and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when the asset has external credit rating of 'investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

#### Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

### 2.4 Material Accounting Policies (Continued)

### Financial instruments (Continued)

#### Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties

### Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

### Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

For the Year Ended 31 December 2024

# 2. ACCOUNTING POLICIES (Continued)

### 2.4 Material Accounting Policies (Continued)

#### Financial instruments (Continued)

*Measurement and recognition of expected credit losses* (Continued)

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognised in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the consolidated statement of financial position.

#### Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss. On derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

#### Financial liabilities and equity instruments

#### Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

#### Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

# 2. ACCOUNTING POLICIES (Continued)

### 2.4 Material Accounting Policies (Continued)

#### Financial liabilities and equity instruments (Continued)

#### Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, and financial guarantee contracts issued by the Group, are measured in accordance with the specific accounting policies set out below.

#### Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not 1) contingent consideration of an acquirer in a business combination, 2) held-for-trading, or 3) designated as at FVTPL, are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

#### Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis. Net realisable value is based on the estimated selling prices less any estimated costs to be incurred to completion and disposal.

#### Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash on hand and at banks, and short-term highly liquid deposits with a maturity of generally within three months that are readily convertible into known amounts of cash, subject to an insignificant risk of changes in value and held for the purpose of meeting short-term cash commitments.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and at banks, and short-term deposits as defined above, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the Year Ended 31 December 2024

# 2. ACCOUNTING POLICIES (Continued)

### 2.4 Material Accounting Policies (Continued)

#### Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss and other comprehensive income.

#### Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated statement of profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

For the Year Ended 31 December 2024

# 2. ACCOUNTING POLICIES (Continued)

### 2.4 Material Accounting Policies (Continued)

#### Taxation (Continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

#### Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

#### **Revenue recognition**

#### Revenue from contracts with customers

Revenue is recognised to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Group uses a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

For the Year Ended 31 December 2024

## 2. ACCOUNTING POLICIES (Continued)

### 2.4 Material Accounting Policies (Continued)

#### Revenue recognition (Continued)

*Revenue from contracts with customers* (Continued)

The Group recognised revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to customers.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- The Group' performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct goods or service.

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer, excludes amounts collected on behalf of third parties, discounts and sales related taxes.

(a) Property management services

For property management services, the Group bills a fixed amount for services provided on a regular basis and recognises revenue in the amount to which the Group has a right to invoice and that corresponds directly with the value of the performance completed.

The Group charges property management fees in respect of the property management services on a lump sum basis.

On a lump sum basis, the Group is entitled to retain the full amount of the received property management fees. From the property management fees, the Group shall bear expenses associated with, among others, staff, cleaning, garbage disposal, gardening and landscaping, security and general overheads covering the common areas. During the term of the contract, if the amount of the property management fees the Group collected is not sufficient to cover all the expenses incurred, the Group is not entitled to request the property owners to pay the shortfall.

### 2.4 Material Accounting Policies (Continued)

#### Revenue recognition (Continued)

Revenue from contracts with customers (Continued)

(a) Property management services (Continued) Accordingly, on a lump sum basis, the Group recognises the full amount of the property management fees which the Group charged the property owners and property developers as revenue.

These services are performed by an indeterminate number of acts over a specified period of time. Accordingly, revenue is recognised on a straight-line basis over the specified period unless there is evidence that some other methods better represent the stage of completion, and the costs of services are recognised as incurred in connection with performing such services.

(b) Value-added services to non-property owners

Revenue from value-added services to non-property owners mainly includes revenue from preliminary planning and design consultancy services to property developers, revenue from cleaning, security, greening, repair and maintenance services to property developers at the pre-delivery stage, and revenue from security support services. The Group agrees the price for each service with the customers upfront and recognises as revenue in the amount to which the Group has the right to invoice and that corresponds directly with the value of performance completed. Revenue from these services is recognised over the scheduled period on a straight-line basis because the customer simultaneously receives and consumes the benefits provided by the Group.

Revenue from value-added services to non-property owners also includes revenue from sales assistance services, additional tailored services customised to non-property owners, housing repair services and pre-delivery inspection services to property developers recognised at a point in time when such consultancy services have been provided.

(c) Community value-added services

Revenue from community value-added services, including temporary parking service, additional tailor-made services, housing repair services, preliminary planning and design consultancy services, is recognised at a point in time when the service has been provided.

Revenue from the provision of utilities collection service, community common area and advertising booth rental services is recognised over the scheduled period on a straight-line basis because the customer simultaneously receives and consumes the benefits provided by the Group.

#### Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

#### **Contract liabilities**

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

#### **Retirement benefits costs**

#### Mainland China

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. The subsidiaries operating in Mainland China are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the central pension scheme.

#### Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

#### Foreign currencies

These financial statements are presented in RMB, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using the irrespective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain overseas subsidiaries, associates are currencies other than the RMB. As at the end of the reporting period, the assets and liabilities of these entities are translated into RMB at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into RMB at the exchange rates that approximate to those prevailing at the dates of the transactions.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve, except to the extent that the differences are attributable to non-controlling interests. On disposal of a foreign operation, the cumulative amount in the reserve relating to that particular foreign operation is recognised in profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rates for the year.

# 3. SIGNIFICANT ACCOUNTING ESTIMATES

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

#### **Estimation uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

#### Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of goodwill at 31 December 2024 was RMB6,482,000 (2023: RMB18,470,000). Further details are given in note 13 to the consolidated financial statements.

# Provision for expected credit losses on trade receivables, other receivables and amount due from related parties

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the property management sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For other receivables and amounts due from related parties, the Group made periodic individual assessment on the recoverability based on historical settlement records and default rates.

The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables, other receivables and amount due from related parties are disclosed in notes 18, 19, 28 to the consolidated financial statements.

For the Year Ended 31 December 2024

# 3. SIGNIFICANT ACCOUNTING ESTIMATES (Continued)

Estimation uncertainty (Continued)

#### Deferred tax assets

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. Further details are included in note 24 to the financial statements.

#### Fair value of unlisted equity investments

The unlisted equity investments have been valued based on a market-based valuation technique as detailed in note 31 to the financial statements. The valuation requires the Group to determine the comparable public companies (peers) and select the price multiple. In addition, the Group makes estimates about the discount for illiquidity and size differences. The Group classifies the fair value of these investments as Level 3. The fair value of the unlisted equity investments at 31 December 2024 was RMB3,241,000 (2023: RMB4,082,000). Further details are included in note 16 to the financial statements.

#### Estimated impairment assessment of property, plant and equipment and intangible Assets

Property, plant and equipment and intangible assets are stated at costs less accumulated depreciation and impairment, if any. In determining whether an asset is impaired, the Group has to exercise judgement and make estimation, particularly in assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the assets belongs.

Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections could materially affect the recoverable amounts.

As at 31 December 2024, the carrying amounts of property, plant and equipment and intangible assets were approximately RMB5,262,000 (2023: RMB5,655,000), and RMB8,520,000 (2023: RMB8,767,000). No impairment on property, plant and equipment and intangible assets have been recognised for the year ended 31 December 2024 (2023: nil).

#### (b) Segment Information

The board of directors, being the chief operating decision makers, review the Group's revenue and profit as a whole, which are determined in accordance with the Group's accounting policies for resources allocation and performance assessment. Therefore, the Group has only one operating and reportable segment and no further segment information is presented except for major customers and geographic information.

#### Geographical information

No geographical information is presented as the Group's revenue from the external customers is derived solely from its operation in Mainland China and all non-current assets of the Group are located in Mainland China.

#### Information about major customers

In 2024, revenue from Leading Holdings Group Limited and its subsidiaries ("**Leading Holdings Group**") contributed approximately RMB56,057,000 (2023: RMB68,880,000) 8.6% (2023: 11.3%) of the Group's revenue. Other than the revenue from Leading Holdings Group, no revenue derived from sales to a single customer or a group of customers under common control accounted for 10% or more of the Group's revenue both years.

### Impairment testing of goodwill

Goodwill acquired through business combinations is allocated to the following cash-generating units:

	Ziyang Jiamei		Chenge	u Xindi	Total	
	<b>2024</b> 2023		2024	2023	2024	2023

Net book value of goodwill	2,565	14,553	3,917	3,917	6,482	18,470

For the purpose of impairment assessment, property, plant and equipment, intangible assets that generate cash flows together with the related goodwill are also included in the respective cash-generating unit ("**CGU**").

The basis of the recoverable amounts of the above CGUs and their major underlying assumptions are summarised below:

#### Ziyang Jiamei

The recoverable amount of the Ziyang Jiamei CGU has been determined based on a value-inuse calculation using cash flow projections based on financial budgets covering a five-year period approved by management. The pre-tax discount rate applied to the cash flow projections is 17.29% (2023: 17.4%) per annum. The growth rate used to extrapolate the cash flows beyond the five-year period is 2% (2023: 2.2%).

For the Year Ended 31 December 2024

# 13. GOODWILL (Continued)

Impairment testing of goodwill (Continued)

#### Chengdu Xindi

The recoverable amount of the Chengdu Xindi CGU has been determined based on a valuein-use calculation using cash flow projections based on financial budgets covering a five-year period approved by management. The pre-tax discount rate applied to the cash flow projections is 17.94% (2023: 17.7%) per annum. The growth rate used to extrapolate the cash flows beyond the five-year period is 2% (2023: 2.2%).

The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill:

*Budgeted revenue* — The budgeted sales amounts are based on the historical data and management's expectation on the future market.

*Budgeted gross margins* — The basis used to determine the value assigned to the budgeted gross margins is the average gross margins achieved in the year immediately before the budget year, increased for expected efficiency improvements, and expected market development.

*Long term growth rate* — The basis used to determine the value assigned to the annual revenue growth rates is the annual revenue achieved in the year immediately before the budget year, increased for expected efficiency improvements, and expected market development.

*Pre-tax discount rate* — The pre-tax discount rates used are before tax and reflect specific risks relating to the relevant units.

During the year ended 31 December 2024, the Group recognised an impairment loss of RMB11,988,000 (2023: nil) in relation to goodwill arising on acquisition of Ziyang Jiamei. The recoverable amount of the Ziyang Jiamei amounted to RMB10,141,000 as at 31 December 2024.

# 18. TRADE RECEIVABLES (Continued)

Trade receivables mainly arise from property management services income. Property management fees are generally due in advance on a monthly or quarterly basis in accordance with the agreement provisions, the credit terms of trade receivables varied based on different types of property projects, normally are 30–90 days. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management and credit limits attributed to customers are reviewed once a month. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. Trade receivables are non-interest-bearing.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date or date of demand note, net of allowance for impairment, is as follows:

	2024 <i>RMB'</i> 000	2023 <i>RMB'000</i>
Within 1 year 1 to 2 years 2 to 3 years Over 3 years	103,024 21,790 8,102 2,693	97,070 14,196 7,219 2,547
	135,609	121,032

The movements in provision for allowance for impairment of trade receivables are as follows:

	2024 <i>RMB'</i> 000	2023 <i>RMB'000</i>
At the beginning of the year Written-off Allowance for impairment losses, net	34,554 (4,167) 14,769	18,553  
At the end of the year	45,156	34,554

An impairment analysis was performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates were based on the ageing of trade receivables for groupings of various customer segments with similar loss patterns. The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the property management sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. Generally, trade receivables were written off if they aged more than five years and were not subject to enforcement activity.

The movements in the loss allowance for impairment of other receivables are as follows:

	2024 <i>RMB'</i> 000	2023 <i>RMB'000</i>
At the beginning of the year Impairment losses recognised	6,749 1,062	3,797 2,952
At the end of the year	7,811	6,749

For amounts due from third parties, advances to employees, and deposits, the Group made periodic individual assessment on the recoverability based on historical settlement records and past experience.

The Group has assessed that the credit risk of advances to employees and deposits had not increased significantly since initial recognition and the loss allowance is measured at an amount equal to 12-month ECLs, and has assessed that the expected credit losses are immaterial.

For prepayments on behalf of customers to utility suppliers and other receivables, the Group determined the expected credit loss rate by considering the nature and historical default rates. The Group applied a 5% (2023: 5%) expected credit loss rate to these other receivables during the year.

# 24. DEFERRED TAX (Continued)

For presentation purposes, certain deferred tax assets and liabilities have been offset in the consolidated statement of financial position. The following is an analysis of the deferred tax balances for financial reporting purposes:

	2024 <i>RMB'</i> 000	2023 <i>RMB'000</i>
Net deferred tax assets recognised in the consolidated statement of financial position	9,088	5,698
Net deferred tax liabilities recognised in the consolidated statement of financial position	936	1,140

Deferred tax assets have not been recognised in respect of the following item:

	2024 <i>RMB'</i> 000	2023 <i>RMB'000</i>
Tax losses	4,918	3,234

At the end of the reporting period, the Group has unused tax losses of RMB4,918,000 (2023: RMB3,234,000) available for offset against future profits, all the unused tax losses will expire within five years from the year in which the respective loss arose. No deferred tax asset has been recognised in respect of the tax losses due to unpredictblity of future profit streams.

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 10%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008.

As at 31 December 2024, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Group's subsidiaries established in Mainland China. In the opinion of the directors of the Company, the Group's fund will be retained in Mainland China for the expansion of the Group's operation, so it is not probable that these subsidiaries will distribute such earnings in the foreseeable future.

# **26. RESERVES**

### (a) Share premium

The share premium represents the difference between the par value of the shares issued and the consideration received.

#### (b) Merger reserve

The merger reserve of the Group represents the issued capital of the holding company of the companies now comprising the Group and the capital contributions from the equity holders of certain subsidiaries now comprising the Group before the completion of the reorganisation..

# (c) Fair value reserve of financial assets at fair value through other comprehensive income

The fair value reserve of financial assets at fair value through other comprehensive income represents unrealised fair value gains or losses for equity investment designated at FVOCI.

#### (d) Capital reserve

The capital reserve mainly represents the difference between the cost of acquisition and the non-controlling interests acquired in the case of acquisition of additional non-controlling interests of subsidiaries.

### (e) Statutory surplus reserve

In accordance with the PRC Company Law and the articles of association of the subsidiaries established in the PRC, the Group is required to appropriate 10% of its net profits after tax, as determined under the Chinese Accounting Standards, to the statutory surplus reserve until the reserve balance reaches 50% of its registered capital. Subject to certain restrictions set out in the relevant PRC regulations and in the articles of association of the Company, the statutory surplus reserve may be used either to offset losses, or to be converted to increase share capital, provided that the balance after such conversion is not less than 25% of the registered capital of the Group. The reserve cannot be used for purposes other than those for which they are created and are not distributable as cash dividends.

# **31. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS**

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the chief financial officer. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair value of the unlisted equity investment has been estimated by using the market approach, using the ratio of price to book value ("**PB ratio**") of certain comparable companies in the same industry, in arriving at an indicated value of the unlisted equity interest. The valuation takes account of a discount for lack of marketability on this investment. The directors believe that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statement of financial position, and the related changes in fair values, which are recorded in other comprehensive income, are reasonable, and that they were the most appropriate values at the end of each reporting period. The valuation process and results are discussed with the board of directors twice a year for annual financial reporting.

Set out below is a summary of significant unobservable inputs to the valuation of financial instruments together with a quantitative sensitivity analysis as at 31 December 2024 and 2023:

	Valuation technique	Significant unobservable input	Rate	Sensitivity of fair value to the input
Unlisted equity investment	Valuation multiple	Discount for lack of marketability (" <b>DLOM</b> ")	28% (2023: 28%)	5% (2023: 5%) increase/ decrease in DLOM would result in decrease/ increase in fair value by RMB223,000 (2023: RMB281,000)

The discount for lack of marketability represents the amounts of premiums and discounts determined by the Group that market participants would take into account when pricing the investments.

### **32. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES**

The Group's principal financial instruments comprise cash and bank balances, trade receivables, other receivables, amount due from (to) related companies, trade payables and other payables.

The main risks arising from the Group's financial instruments are foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

### Foreign currency risk

The Group has transactional currency exposures. Such exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies. None of the Group's sales (2023: Nil) were denominated in currencies other than the functional currencies of the operating units making the sale, whilst none (2023: Nil) of costs were denominated in the units' functional currencies.

The Group has currency exposures from its cash and bank balances.

Otherwise, the credit quality of the financial assets is considered to be "doubtful".

For the Year Ended 31 December 2024

### 32. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

#### Credit risk (Continued)

#### Maximum exposure and year-end staging (Continued)

Further quantitative data in respect of the Group's exposure to credit risk arising from trade receivables are disclosed in note 18 to the financial statements.

#### Liquidity risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of trade payables, amounts due to related companies and other payables. Cash flows are being closely monitored on an ongoing basis.

As at 31 December 2024 and 2023, the maturity profile of the Group's financial liabilities as at the end of each of the reporting periods, based on the contractual undiscounted payments, is repayable on demand or within 1 year.

#### **Capital management**

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The capital structure of the Group consists of net debt, net of cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital, reserves and retained earnings. The Group did not have borrowings as at 31 December 2024 and 2023.

The directors of the Company review the capital structure on a semi-annual basis. As part of this review, the directors of the Company consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors of the Company, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2024 and 31 December 2023.
